PROFESSIONAL SUMMARY

Aspiring Python Full Stack Developer with a strong foundation in Python, Django, HTML, CSS, JavaScript, and MySQL. Skilled in building responsive, database-driven web applications and familiar with Git and GitHub for version control. Seeking an entry-level developer role to apply full stack development and problem-solving skills while contributing to real-world software projects.

EDUCATION

Rajeev Institute of Technology, Hassan

2022 - 2026

Bachelor of Engineering, Electronics and Communication | CGPA: 7.8

Times PU College, Hassan

2020 - 2022

PCMB | 68%

TECHNICAL SKILLS

- **Programming Language:** Python
- **Frontend Technologies:** HTML, CSS, JavaScript
- **Backend Framework:** Django
- **Database:** MySQL, SQL
- **Version Control & Tools:** Git, GitHub, VS Code
- **Python Libraries:** NumPy, Pandas, Matplotlib

PROJECT

E-Commerce Web Application

- Developed a responsive e-commerce web application using **Python, Django, HTML, CSS, and MySQL**.
- Implemented **5 core features**: product browsing, product details, shopping cart, user interactions, and purchase management.
- Built backend functionality with **Django** for product management and user interactions, including database-driven operations.
- Designed and managed **MySQL** database operations to organize product and user-related information.
- Used **Git and GitHub** for version control and project code management.

INTERNSHIP

Python Full Stack Development Internship | Tap Academy

- Completed hands-on training in Python Full Stack Development, covering frontend and backend web development concepts.
- Built web application components using **Python, Django, HTML, and CSS**, strengthening understanding of full stack workflows.
- Practiced **database concepts and CRUD operations** for managing and retrieving application data.
- Gained familiarity with **Git and GitHub** for version control and source code management.

CERTIFICATIONS

- Python Full Stack Development Certification | Tap Academy
